ARC SERIES

Baffle Colour Selection

Choose from additional White Baffle covers

Easy Installation

Mains Loop-in and Loop-out Driver feature on Standard & Mains Dimmable Models

High CRI & High Efficiency

Featuring the latest Technology in LED engines to help enhance the appearance of colours & objects whilst offering high lumen efficiencies

Description

The Forma modular embodies a classic yet minimalist design which seamlessly blends into any environment, helping form that high end finish. This versatile yet elegant Fire Rated LED Downlight features a multitude of power outputs, dimming protocols and Kelvin variations including Dim to Warm. As with all our modular range this unit features a high Colour Rendering Index (CRI) of 95+, offering a clean light in any output which in turn enhances the appearance of colours and objects it comes into contact with.

Dimensions

Height: 67mm
Diameter: Ø80mm
Cut Out: Ø68-70mm

Wattage	10W	12W
Lumen Output	850lm	1020lm
Lumens per Watt	85lm/w	
Finish	RAL 9003 and RAL 9005	
Class	Class 3
